Safety Policies and Specialist Support

C&G Services has helped hundreds of companies just like your to put together a policy covering all of your work activities. In today's climate a good safety policy must fulfil several different needs;

- q It must be relevant to the staff concerned and easily understood;
- q It must not make promises which cannot be reasonably met;
- q It must offer some protection to the reasonable employer against No Win; No Fee claims;
- q It should break down thousands of pages of legislation and guidance into small relevant issues;
- q It should act as a marketing tool for the business allowing more business to be won from new and larger clients;
- q It should demonstrate the companies commitment to safety to clients, other construction professionals and your insurers.

We can offer all of these things and more, our policies have the following advantages;

1. Each policy holder automatically becomes a member of Safety-net, an unlimited access helpline giving you advance on any safety issue without charge;
2. Each policy holder will have the policy reviewed and assessed to ensure that changes in the many regulations passed on safety issues don't catch them by surprise;
3. Updates are provided when changes in legislation or best practice are planned allowing you to keep ahead of the game;
4. Free accident investigation; as a Safety-net member a specialist consultant will provide a free accident investigation should a reportable accident occur.

Our policy documents, Risk and COSHH Assessments and Method Statements have been assessed and approved by everyone from Enforcing Authorities to Major Contractors.

Costs

The price of our highly developed policies are a fraction compared to researching, producing and maintaining your own in house version. From just £34 per month you can solve all of your health and safety needs; for a written, no obligation quotation just call 0800 731 2989
